Tasks

1. Check if the following methods are described correctly in the Knowledgebase chapter. (the methods are marked with " ** ")
   a) page 38 – deserialize subtree
   b) page 43 – iterator ++
   Also I need to know what these methods exactly do.
   a) page 44 – operator++(int foo)
   b) page 46 – undo(unsigned int count) - Here what is the role of the parameter count?

2. Page 56
   A sentence or two about the learning algorithms. Fill the place indicated by " (…) "

3. Modifications to Quick tour of Libalf.
